

Tru Vue® Glass Cleaner®

S1510 Premium Clean, 26oz

S1511 Premium Clean, 1 Gallon

Ammonia free, safe for any framing presentation-conservation or decorative glass. Does not foam and makes cleaning glass easy, with a static-free, de-ionized formula that repels dust. Available in a 26oz spray bottle or a one gallon jug.

CLEANING

How do I clean Tru Vue glass products?

All of Tru Vue glass products are clean and ready to use out of the box. If spot cleaning is needed, spray a small amount of ammonia-free glass cleaner on a micro-fiber cloth or a clean lint-free cotton rag. To prevent overspray, do not spray the cleaner directly on the glass. Press the cloth against the glass and clean in round, circular motions.

Why does Tru Vue recommend using an ammonia-free glass cleaner?

Cleaning glass products with harsh chemicals such as ammonia can be harmful to your customers' valued pieces. Ammonia can cause out-gassing within the framing package.
